

The Fox Den Newsletter Vol.35

Thursday, October 31st, 2024
Interim Director, Antoinette Kemp
Phone Number: 478-974-5674

Highlight 1B: Osha & Alyssa

We are so blessed to have a great class. They are the sweetest, smartest, loving children and they make our jobs a wonderful experience. We would also like to thank all of our parents for entrusting us with their children. We strive to follow the Fox Den Mission Statement because the education of our scholars is the most important thing.

Staff Member of The Month

I have been in the 2A classroom since the start of the year and always remember WHY I am here. I am here to grow, nurture, and provide a positive learning experience to all of my students. When I show up every day, that's what I do. Being selected Teacher of the Month means a lot to me. I'm humbly thankful!

Quote of the week!

“Children must be taught how to think, not what to think.” – Margaret Mead

Breast Cancer Awareness Month

Here at The Fox Den our Staff wore pink in support of all the women and men that have breast cancer. Did you know that roughly half of all breast cancers occur in women with no specific risk factors other than sex and age.

All people, male or female, are born with breast cells and tissue. While males do not develop milk-producing breasts, a man's breast cells, and tissue can still develop cancer.

Male breast cancer is rare, accounting for less than 1% of all breast cancer diagnoses in the United States. The lifetime risk of male breast cancer is about 1 in 726, according to the American Cancer Society. The typical age range for male breast cancer diagnosis is between 60 and 70, with 67 as the average age of a male breast cancer diagnosis.

While breast cancer in men is rare, men do carry a higher breast cancer mortality rate than women, primarily because men are less likely to assume a lump is breast cancer and are overall less aware of breast cancer, which can cause a delay in seeking treatment.

Breast cancer is the **second leading cause of cancer death** in women in the US.

66% of breast cancer cases are diagnosed at a localized stage, for which **the 5-year survival rate is 99%.**

The Fox Den Fall Festival

The Fox Den would like love to say "Thank You," to everyone who attended our First Annual Fall Festival. We greatly appreciate all the love and support that was shown to not only our staff but to our vendors that showed up as well. The Fox Den would also like to say thank you to every parent that helped from setting up to cleaning up. YOU GUYS ROCK! Here's a look at all the fun that was had this year!
